

Courses

In the Other statuses tab, the administrator can see information about courses, but for those students who have been rejected or dropped out of the course (before the course starts).

The following option is intended for administrators in order to view or change information about courses.

Invalidating the UNIC Student Status

If a home UNI uses API, the status of the UNIC student can be revoked via API. Otherwise, the UNIC student status is revoked by the home UNI Admin via Admin portal.

Figure 1. Available options in courses related menu

There are five different options in this menu:

- Course management - option intended for adding, viewing and editing existing courses
- Incoming pending enrolment - with two sub-options: pending enrolments and approved enrolments
- Incoming active - list of incoming active students
- Incoming finished - the list of incoming students who have completed the activity
- Incoming history - the list of students who had dropped off from the course, or had been denied enrolment.

Titles on the page:

- **Course management**
 - Adding a new course
 - Edit course
 - Course instances
 - Active instances
 - Instances history
 - New instance
- Incoming pending enrolment
- Incoming active
- Incoming finished
- Incoming history

Course management

Course management option offers a number of action regarding a course.

Through this option, administrator can add a new course, edit course, view or add a new course instance

Courses

Add course

Local course ID	Name	Description	ECTS Credits	Prerequisites	Active	Actions	Course instances
32810	Geoinformation Quality 	Description of Geoinformation Quality	5	There are no prerequisites for this class.	Active		
32878	Engineering Geodetic Bases	Description of Engineering Geodetic Bases	5	Excellent command of academic English; regular attendance and participation; reading seminar texts (four registered readings), one in-sessional (10') presentation, and a final draft of assessed essay.	Active		
14	Information Systems Management	za rolu 3	2	There are no prerequisites for this class.	Active

Course instances

Course instance is related to every course lecture in a certain period/academic year.

One course can have more the one instance in the same period of time or in a same academic year.

Active instances

This option shows every active instance of certain course. A instance is active if it is still not pass the start date or an end date.

The main difference is that once the start date has passed, course instances can no longer be modified, but if the course hasn't started yet, an administrator can change the course instance information and add or remove instructors.

The following information are visible:

- instance number - every instance have it's own number/code
- academic year - when the instance will be held
- start and end date
- students quota – how many students can enrol
- actions - there are two possibilities:
 - no action available - if start date has passed
 - editing information about course instance and adding/removing teachers
- teacher - who will be the lecturer for specific instance.

Active instances		Instances history				
Instance number	Academic year	Start date	End date	Quota	Actions	Teachers
3571	2022	01 Oct 2022	31 Jan 2023	30	No action available.	
3573	2022	10 Mar 2023	10 Jun 2023	15	✎ +

Figure 6. Active instances

Instances history

This option shows history for course instances.

When the course has ended, it becomes visible in this tab.

The following information are visible:

- instance number - every instance have it's own number/code
- academic year - when the instance was the held
- start and end date
- students quota – how many students can enrol
- actions - there aren't any action available
- teacher - who will be the lecturer for specific instance.
