

Students

The following option is intended for administrators when they have to change or view information about students.

Invalidating the UNIC Student Status

If a home UNI uses API, the status of the UNIC student can be revoked via API. Otherwise, the UNIC student status is revoked by the home UNI Admin via Admin portal.

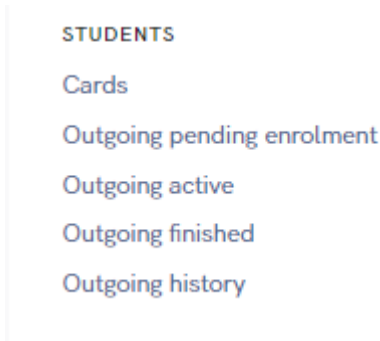

Figure 1. Available options in students related menu

There are five different options in this menu:

- Cards - option intended for activating and deactivating student cards
- Outgoing pending enrolment - with two sub-options: pending enrolments and approved enrolments
- Outgoing active - list of outgoing active students
- Outgoing finished - the list of outgoing students who have completed the activity
- Outgoing history - the list of students who had dropped off from the course, or had been denied enrolment.

Titles on the page:

- Cards
- Outgoing pending enrollment
- Outgoing active students
- Outgoing finished
- Outgoing history

Cards

This option allows administrator to activate or deactivate student UNIC card.

Student cards

Figure 4. List of students with pending enrolments

For administrator to accept or denies student's pending enrolment, the pending tab must be selected, then the plus sign (option Inseptct) as shown on the Figure 4.

A new screen appears with the following information:

- student's name and surname,
- the receiving university,
- the course the student wants to enroll in,
- academic year,
- ECTS credit,
- course start and end date,
- method of attendance,
- and status (1-enrolled).

After reviewing the information, administrator takes a action: approve or denies student's application.

Approve/deny enrolment ()
