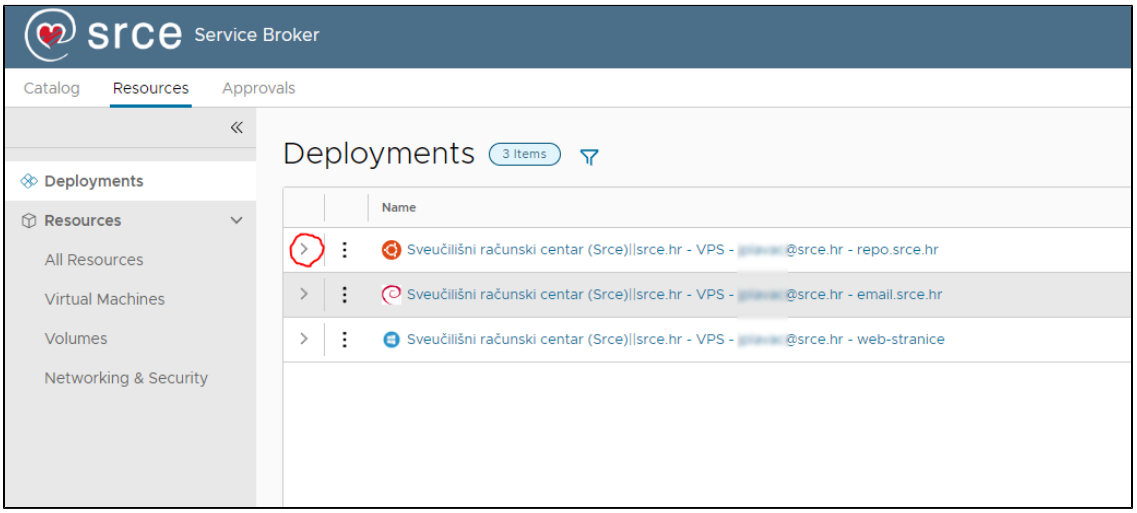
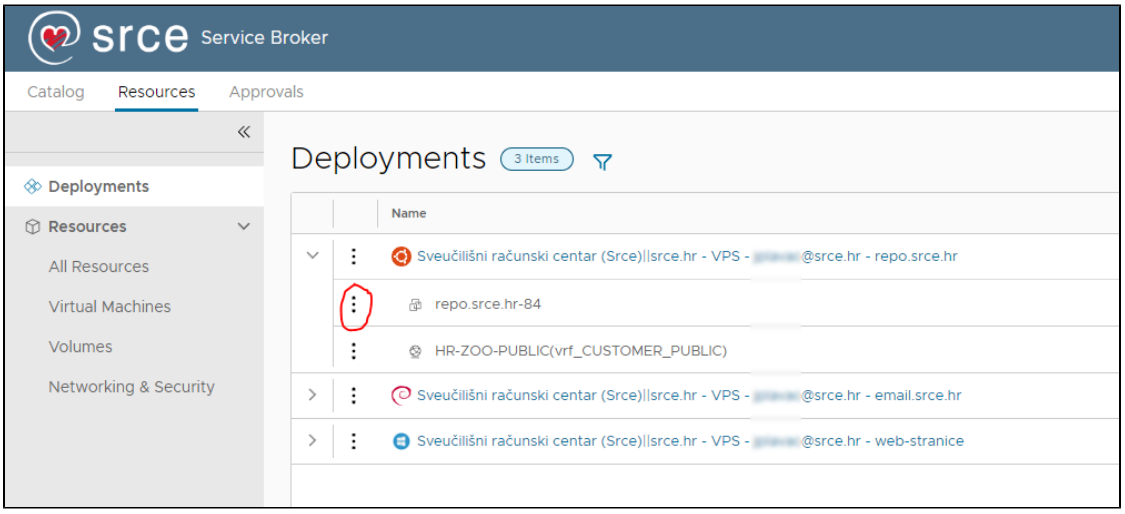
Brisanje "snapshota"

⚠ Snapshote treba redovito brisati, čim više nisu potrebni. Snapshoti stariji od 2 dana mogu biti obrisani u bilo kojem trenutku.

Za brisanje "snapshota"na poslužitelju na stranici ***Service Broker*** na tabu Resources potrebno je proširiti strelicu pokraj naziva poslužitelja koji počinje nazivom ustanove (a sadrži još i vrstu resursa i korisničko ime).



pa kliknuti na tri točkice pored naziva poslužitelja



a zatim s padajućeg izbornika odabrati ***Delete snapshot***.
