Politika korištenja metapodataka i radova objavljenih na portalu Hrčak

Servisi i / ili pružatelji usluga koji preuzimaju cjelovite tekstove radova objavljenih u Hrčku i koji su, sukladno Politici korištenja radova, dostavili tražene podatke:

Naziv servisa i/ili pružatelja usluge	Učestalost preuzimanja radova	Način korištenja radova	Internetske adrese s kojih će servis pristupati podacima	Datum prijave
OpenAIRE (https://www.openaire.eu/) & OpenMinted (http://openminted.eu/) (via OpenAIRE)	The full texts will be harvested every two weeks by "OpenAIRE".	"OpenAIRE" will download the full texts in order to analyse them with the help of text mining tools. This way, "OpenAIRE" is able to extract bibliographic citations and referenced project information, recommend similar publications on it's portal, add computed class codes and more. "OpenMinted" will allow users to create their own text mining tools and workflows on the collected data (not yet implemented). Neither "OpenAIRE" nor "OpenMinted" will make the full texts files publicly available. However, in the case of "OpenMinted" the "OpenMinted" consortium members (see list here: http://openminted.eu/about/partners/) will be able to download the full text corpora collected by "OpenAIRE" in order to create new text mining tools. More in-depth technical information about the text mining tools used by "OpenAIRE" can be found on github: https://github.com/openaire/iis and the text mining can be tested hands-on here: https://www.openaire.eu/textmining.
