RStudio Server

U okviru JupyterLab servisa moguće je koristiti sučelje platforme RStudio Server - integralnu platformu za razvoj (engl. *Integrated Development Environment*, IDE) pripremljenu upravo za sustav R.

Nakon prijave u JupyterLab servise odaberite **File → New Launcher,** te **RStudio.**

U novom prozoru otvorit će vam se sučelje platforme RStudio Server.:

Detaljnije upute za rad s platformom RStudio Server možete pronaći na stranicama: https://docs.rstudio.com/.
